INDEPENDENT AUDITORS' REPORT

To The Board of Directors
Pinewood Sanitary District

We have audited the accompanying basic financial statements of Pinewood Sanitary District as of and for the year ended June 30, 2010 and 2009. These financial statements are the responsibility of the management of Pinewood Sanitary District. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the District as of June 30, 2010 and 2009, and the changes in its financial position and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis on pages 3 through 6, is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Management's Discussion and Analysis

As Management of the Pinewood Sanitary District we offer readers of the District's financial statements the narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2010. We encourage readers to consider the information presented here in conjunction with the accompanying financial statements and notes.

Financial Highlights

- The District's net assets of \$4,952,073 increased over the course of this year's operation by \$428,169 or 9.5%. This increase was principally due to loan and bond principal payments made by the District.
- During 2010, the District paid down long term debt by \$1,499,638.

Overview of Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statement and is comprised of two components:

- 1) The financial statements
- 2) Notes to the financial statements that explain in more detail some of the information in the financial statements.

Required Financial Statements

The financial statements of the District report information about the District using accounting methods similar to those used by private sector companies. These statements provide both long term and short term information about the District's overall financial status.

The statement of net assets presents information on all of the District's assets and liabilities, with the difference between the two reported as net assets.

This statement provides information about the nature and the amounts of investments in resources (assets) and the obligation to District creditors (liabilities). It provides one way to measure the financial health of the District by providing the basis for evaluating the capital structure of the District and assessing the liquidity and financial flexibility of the District. However, one will need to consider other financial factors such as changes in economic conditions, population and commercial customer growth, and new or changed government requirements.

All of the current year's revenues and expenses are accounted for in the statement of revenues, expenses, and changes in net assets. This statement measures the success of the District's operation over the past year and can be used to determine whether the District has successfully recovered all its costs through its user fees, other charges and credit worthiness.

The final required financial statement is the statement of cash flows. The statement reports cash receipts, cash payments, and net changes in cash resulting from operating, investing, and financing activities. This statement provides answers to such questions as where did cash come from, what was cash used for, and what was the change in the cash balance during the reporting period.

Financial Analysis of the District

Net Assets

As previously noted, net assets may serve over time as a useful indicator of an entity's financial position. In the case of the District, assets exceeded liabilities by \$4,939,457 at the close of the most recent fiscal year.

As can be seen in Table A-1 below, the largest portion of the District's net assets reflects its investment in capital assets (i.e., sewers, buildings, machinery and equipment) less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide sewerage treatment services and to maintain and improve mains & manholes for the entire District Service area; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources to repay this debt must be provided from other sources, since the capital assets themselves are not intended to be used to liquidate these liabilities.

Table A-1
Condensed Statements of Net Assets

	<u>2010</u>	<u>2009</u>	<u>Percentage Increase(decrease)</u>
Current and other assets	\$ 456,006	\$ 1,117,044	-59.18%
Net capital assets	<u>8,388,434</u>	<u>8,872,660</u>	-5.46%
Total assets	<u>8,844,440</u>	<u>9,989,704</u>	-11.46%
Current liabilities	312,114	966,410	-67.70%
Noncurrent liabilities outstanding	<u>3,580,253</u>	<u>4,499,390</u>	-20.43%
Total liabilities	<u>3,892,367</u>	<u>5,465,800</u>	-28.79%
Invested in capital assets net of related debt	4,559,088	3,460,679	31.74%
Restricted - capital projects	3,007	1,836	63.78%
Restricted - debt service	345,688	1,042,444	-66.84%
Unrestricted	<u>44,290</u>	<u>18,945</u>	-133.78%
Total net assets	<u>\$ 4,952,073</u>	<u>\$ 4,523,904</u>	<u>9.46%</u>

The increase in net assets for 2010 is directly related to the District's paying down of debt related to its five year Capital Improvements Program plan.

Revenues and Expenses

While the statements of net assets (Table A-1) shows the change in our financial position the statements of revenues, expenses, and changes in net assets provides answers as to the nature and source of these changes. Operating revenues consist primarily of service fees charged to our customers to support operating expenses and debt payments. Operating expenses are incurred to support the operations of the sewer district. Also included in expenses is depreciation on capital assets and interest expense incurred on outstanding debt. See the summary of these revenues and expenses in Table A-2 following.

The District revenue is fee based although it does have taxing authority per Arizona Revised Statutes. The average monthly customer bill is \$68.65, which does represent an increase from rates charged during the previous fiscal year. A portion of the monthly fees are reserved for debt re-payments. (GOB bonds - \$16.22; WIFA - \$12.86 improved lots and \$8.25 unimproved lots). The Management and Board of Directors continually review the capital improvement and operational needs of the District in an effort to maintain as affordable efficient operation as possible.

The operations portion of fees was increased in the 2009-2010 fiscal year, primarily due to the increased operating costs in plant operations and vehicle maintenance. As a result of this increase, the operating cash is in a much better financial position. The board determined there would be no fee increase in fiscal year 2010-2011.

Table A-2
Condensed Statements of Revenues, Expenses
and Changes in Net Assets

	<u>2010</u>	<u>2009</u>	<u>Percentage Increase(Decrease)</u>
Operating Revenues	\$ 2,420,122	\$ 2,365,820	2.30%
Nonoperating Revenues	<u>14,135</u>	<u>28,655</u>	<u>-50.67%</u>
Total revenues	2,434,257	2,394,475	1.66%
Depreciation expense	489,191	485,418	0.78%
Other operating expense	1,321,524	1,378,537	-4.14%
Interest expense	<u>195,373</u>	<u>246,022</u>	<u>-20.59%</u>
Total expenses	<u>2,006,088</u>	<u>2,109,977</u>	<u>-4.92%</u>
Change in Net Assets	<u>\$ 428,169</u>	<u>\$ 284,498</u>	<u>50.50%</u>

Capital Assets

As of June 30, 2010, the District's capital assets net of accumulated depreciation amounted to \$8,388,434, which represents a net decrease of \$484,226 over the previous year. The decrease is primarily the result of depreciation on capital assets. More detailed information about the District's capital assets are presented in the notes to the financial statements.

Debt Service

General obligation indebtedness outstanding at June 30, 2010 amounted to \$385,000 for General Obligation Bonds at an interest rate of 6.00 to 6.60%.

Indebtedness for loans through WIFA amounted to \$3,408,147 as of June 30, 2010 at interest rates from 3.3 to 3.83%.

Payments are made on July 1st and January 1st each fiscal year.

Project Highlights

Fiscal year 2005-2006 marked our first design and build project. This project's scope was to provide sewer service to the Motel in the Pines and several residences that were on septic systems. This project was designed and built by the District and paid for by the business and residences benefited.

We also received monies from the Federal Emergency Management Agency and the State Department of Emergency Management under the Federal and State declared emergency for December 2004 and January 2005 events. We were approved for over \$300,000 in grants for repairs to our access roads and bridges and stream remediation. The District's contribution is (10%) ten percent of the project cost. This project was completed in early fiscal year 2006-2007 and under the projected estimated cost.

We have completed the construction of Phase 1 for providing sewer service to Turkey Trail and North Lodge Drive in North Lodge. We continue working with the East and West side of I-17 Commercial properties owners in an effort to provide them with much needed sanitary sewer service. The District acted as the contractor for the North Lodge project with all of the construction costs to be eventually born by the North Lodge residents. Phase 1 of the North Lodge project was completed on July 25, 2008 and is now serving several residences in the area. Further construction in North Lodge will continue as soon as funding by the residents of North Lodge has been received by the District.

The new filters were ordered near the end of the 2006-2007 fiscal year, in order to insure that adequate funds had been collected to pay for purchase and installation of the filter units. The parts needed to retrofit the clarifiers were also ordered late in the fiscal year to insure available funding was on hand at the time of delivery. The Filter project was completed in February 2008 and the Clarifier Retrofit was completed in December of 2007.

We were also involved with the Pinewood Boulevard Road and Drainage Improvement Project being undertaken by Coconino County. This project required the District to relocate many of our sewer services and mains. This was a non budgeted project costing the District about \$160,000.00. Our efforts to secure recoupment funds from Coconino County proved to be not possible due to an existing franchise that was in place between Coconino County and the Pinewood Sewer Company that remained in effect after the District was formed. This franchise has expired and no plans are in the offering to renew it.

No major projects were undertaken by the District in fiscal year 2009-2010 due to budgetary restraints but we look forward to the possible inclusion of the commercial areas of Munds Park into our system in the near future.

Requests for Information

This financial report is designed to provide a general overview of the District's finances for all of those with an interest in the District's finances and to demonstrate the District's accountability for the money it receives.

Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Pinewood Sanitary District, PO Box 18758, Munds Park, AZ 86017-8758 or www.pinewoodsanitary.com

PINEWOOD SANITARY DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010 and 2009

NOTE 1 Summary of Significant Accounting Policies:

Organization

Pinewood Sanitary District of Coconino County, Arizona (“District”) was formed on May 18, 1992 pursuant to Section 48-261, Arizona Revised Statutes, as a special district, and is authorized to provide sanitary services at Munds Park, Arizona. Various fees charged for sanitary services to the District’s lot owners are charged at predetermined rates. These fees are the primary source of the District’s revenues. Should the District’s revenues fall short of amounts required to cover operating expenses and debt retirement, these fees could be raised by the District, through procedures prescribed by Arizona Revised Statutes.

Method of accounting

The District’s financial statements are presented on the full accrual basis of accounting and conform to U.S. generally accepted accounting principles. The District has elected under GASB Statement No. 20, to apply all applicable GASB pronouncements as well as any applicable FASB pronouncements issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements .

Accounts receivable and allowance for doubtful accounts

Accounts receivable represent monthly billings for service fees and related debt retirement and capital payments. Accounts receivable includes vacant lot availability fees. The District has no method to enforce payment of vacant lot availability fees except to deny connection to the sanitary system until all back fees are paid. The District has established an allowance for doubtful accounts based on a periodic review of its outstanding accounts receivable. An allowance for doubtful accounts of \$7,000 and \$5,000 was established as of June 30, 2010 and 2009, respectively.

Capital assets

Capital assets, which include land, buildings, sewer plant, and equipment are carried at cost less accumulated depreciation. Routine repairs and maintenance are expensed as incurred. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, which are 30 to 40 years for plant, system and buildings and 5 to 10 years for furniture and equipment.

Management of the District reviews its property and equipment for impairment when events or changes in circumstances indicate the carrying amounts of the property may not be recoverable. When such conditions exist, management estimates future cash flows from operations and disposition of the property. Of the estimated undiscounted future cash flows from operations and the disposition of the property are less than the carrying amount of the asset, an adjustment to reduce the carrying amount to the related property’s estimated fair market value would be recognized and an impairment loss would be recognized. No such impairment losses have been recognized.

PINEWOOD SANITARY DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010 and 2009

NOTE 1 Summary of Significant Accounting Policies, (cont).

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash

All cash balances of the District are held in appropriate accounts allowed per Arizona Revised Statutes. The cash balances are primarily held by Coconino County. All cash deposits of the District were covered either by federal depository insurance or collateral held by the pledging financial institution's trust department or agent in the County's name per state statutes. Cash represents cash and cash equivalent financial instruments which generally have maturities of three months or less. Due to their short maturities, cash and cash equivalents are carried at amounts that reasonably approximate fair value.

Net assets

Net assets are displayed in three components as follows:

Invested in capital assets, net of related debt – consists of all capital assets, net of accumulated depreciation and reduced by outstanding debt that is attributable to the acquisition, construction, and improvement of those assets. Debt related to unspent proceeds or other restricted cash is excluded from the determination.

Restricted – consists of net assets that are legally restricted by outside parties or by law through constitutional provisions or enabling legislation. When both restricted and unrestricted resources are available for use, generally it is the District's policy to use the restricted resources first, then unrestricted resources when they are needed.

Unrestricted – consists of net assets that do not meet the definition of restricted or invested in capital assets, net of related debt.

Income taxes

There is no provision or liability for income taxes included in the financial statements, as the District is a tax exempt, special district, under Arizona Revised Statutes.

PINEWOOD SANITARY DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010 and 2009

NOTE 2 Cash for Restricted Purposes

Cash for restricted purposes consists of the following funds:

	<u>2010</u>	<u>2009</u>
Bond debt service (502)	\$ 2	\$ 5,978
WIFA Repayment (503)	338,514	308,555
WIFA Reserve (504)	1,029	25,282
Bond retirement (505)	6,143	702,629
WIFA improvements (506)	<u>3,007</u>	<u>1,836</u>
	<u>\$ 348,695</u>	<u>\$ 1,044,280</u>

Accounts 502 and 505 are restricted for payments of interest and principal on the District's general obligation bonds. Accounts 503 and a portion of 504 are restricted for repayment of the WIFA loans, see note 7. Account 506 is restricted for approved construction under the WIFA loan agreements. Predetermined amounts of the District's monthly fee revenues are allocated to these accounts.

NOTE 3 Acquisition of Plant and Sanitary System

In late 1993, the District initiated proceedings to levy special assessments against benefiting lots and parcels of land within the District to provide money to acquire the sewer collection and treatment system, then owned by the Pinewood Sewer Company and make certain improvements to the system. The special assessment proceedings provided for a levy of \$1,850,000 against 3,009 lots on the basis of \$615 per lot for such acquisitions and improvements. In response to the levy 2,357 lot owners paid the full assessment. The resulting payments were used to purchase the sewer collection and treatment system. The remaining lots paid \$5.25 monthly towards retirement of the levy, which is included as part of service fee revenue.

PINEWOOD SANITARY DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010 and 2009

NOTE 4 Pension Benefits

The District is eligible to participate in the Arizona State Retirement System. Qualified full-time employees are required to participate through payroll deductions, which are matched by the District. The contribution percentages were 9.1% for both calendar years 2010 and 2009. Matching payments by the District are included in personnel expense on the Statements of Revenues, Expenses and Fund Balance and amount to \$48,205 and \$58,074 for the years ended June 30, 2010 and 2009, respectively.

The Arizona State Retirement System administers a cost-sharing multiple-employer defined benefit pension plan. The plan issues a publicly available annual financial report that includes its financial statements and required supplementary information. A report may be obtained by writing or calling ASRS, P.O. Box 33910, Phoenix AZ 85067-3910, phone number (800)621-3778.

NOTE 5 Long-term Obligations

The following is an analysis of the changes in the District's long-term obligations for the years ending June 30, 2010 and 2009.

	<u>Balance at</u> <u>July 1, 2009</u>	<u>New Issues</u>	<u>Retirements</u>	<u>Balance at</u> <u>June 30, 2010</u>	<u>Due within</u> <u>One Year</u>

PINEWOOD SANITARY DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010 and 2009

NOTE 6 General Obligation Bonds Payable

The District issued general obligation bonds of \$5,750,000 (Series 1995) on October 12, 1995. Interest rates on the remaining maturities range from 6.00% to 6.60% and interest is payable on January 1 and July 1 of each year. Bond principal payments are due only on July 1 of each year. The bonds are secured by the full faith and credit of the District and mature in incremental annual amounts through July 1, 2011. Debt service requirements are as follows:

<u>Due during years ending June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2012	385,000	12,705	397,705
	<u>\$ 385,000</u>	<u>12,705</u>	<u>397,705</u>

A bond principal and interest payment in the amount of \$658,819 was due and paid on July 1, 2009. The accrued interest on this payment of \$53,819 was included in accounts payable and accrued expenses at June 30, 2009. The principal payment was included in long-term obligations due within one year. The current year's payment was paid on June 30, 2010. As a result of this early payment, the balance sheet at June 30, 2010 reflects no accrued interest payable or current portion of principal due on the bonds.

The District's interest expense on the above mentioned bonds was \$70,299 and \$109,695 for the years ended June 30, 2010 and 2009, respectively.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010 and 2009

NOTE 7 WIFA Loans

The District has obtained financing for the rehabilitation of 160 manholes and to make mainline repair from the Water Infrastructure Financing Authority of the State of Arizona (WIFA). The primary purpose of this work is to significantly reduce the intrusion of groundwater into the system, which is causing a significant burden on the District's processing operations.

The WIFA loans are funded through approved construction draws and bear interest at 3.37% and 3.85%, payable semi-annually. The loan agreements require the District to build a reserve fund of one year's payments during the first five years of the loan. These funds remain with the District and can be used in an emergency with notice to WIFA. The following payment schedule is in effect based on the loan payment schedules provided by WIFA based on the timing and amount of the loan draws and payments.

<u>Due</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2011	232,377	114,293	346,670
2012	240,429	106,101	346,530
2013	248,761	97,625	346,386
2014	257,382	88,853	346,235
2015	266,303	79,778	346,081
2016-2020	1,476,568	251,311	1,727,879
2021-2024	686,327	28,467	714,794
	<u>\$ 3,408,147</u>	<u>766,428</u>	<u>4,174,575</u>

The three loans have original commitments of \$750,000, \$3,618,470 and \$631,530, respectively. WIFA Loan #1 and Loan #2 have been fully drawn. WIFA Loan #3 was drawn to a level of \$629,143.

It is the District's policy to capitalize interest associated with WIFA construction loans for construction projects in progress. Interest is expensed after the loan is fully drawn and the projects associated with the loan have been completed. No WIFA loan interest was capitalized for the years ended June 30, 2010 and 2009. WIFA loan interest expense was \$121,903 and \$129,537 for the years ended June 30, 2010 and 2009, respectively.
